

COREL PHOTO-PAINT Keyboard Short Cuts

Command	Table	Keystroke	Description
	Main	N	
	Main	F8	
	Main	F5	
	Main	Shift+	
Acquire...	Main	Ctrl+Q	Imports an image from an external device
Align and Distribute...	Main	Ctrl+Shift+A	Aligns object(s) within an image or with each other
Artistic Media	Main	Ctrl+F10	Opens the Artistic Media Docker window
Back One	Main	Ctrl+PgDn	Moves the selected object(s) down one in the stacking order
Bold	Text Editing	Ctrl+B	Bolds text
Brightness/Contrast/Intensity...	Main	Ctrl+B	Brightness/Contrast/Intensity
Browse...	Main	Ctrl+F12	Browse ScrapBook Tab
Brush Mask Tool	Main	B	Creates a mask from brush strokes
Brush Settings	Main	Ctrl+F8	Opens the Brush Settings Docker window
Cascade	Main	Shift+F5	Cascades image windows
Center	Text Editing	Ctrl+E	Center Alignment
Channel Selection	Main	Alt+0	Channel Selection
Channel Selection	Main	Alt+1	Channel Selection
Channel Selection	Main	Alt+2	Channel Selection
Channel Selection	Main	Alt+3	Channel Selection
Channel Selection	Main	Alt+4	Channel Selection
Channel Selection	Main	Alt+5	Channel Selection
Channel Selection	Main	Alt+6	Channel Selection
Channel Selection	Main	Alt+7	Channel Selection
Channel Selection	Main	Alt+8	Channel Selection
Channel Selection	Main	Alt+9	Channel Selection
Channels	Main	Ctrl+F9	Opens the Channels Docker window
Clone Tool	Main	C	Paints with current clone
Close	Main	Ctrl+F4	Closes the active Image Window
Color	Main	Ctrl+F2	Opens the Color Docker window
Color Balance...	Main	Ctrl+Shift+B	Color Balance
Color Palette Browser...	Main	Ctrl+F5	Displays a list of Color Palettes
Color Transparency Tool	Main	2	Color Transparency Tool
Combine All Objects With Background	Main	Ctrl+Shift+DnArrow	Combines all objects with the background
Combine Objects Together	Main	Ctrl+Alt+DnArrow	Combines the selected objects together

Combine Objects With Background	Main	Ctrl+DnArrow	Combines the selected object(s) with the
Copy	Main	Ctrl+C	Copies the selection and places it on the Clipboard
Copy	Main	Ctrl+Insert	Copies the selection and places it on the Clipboard
Copy Visible	Main	Ctrl+Shift+C	Copies the visible area in the selection and places it on the Clipboard
Crop Tool	Main	D	Crops the image
Customization...	Main	Ctrl+J	Allows you to customize the application
Cut	Main	Ctrl+X	Cuts the selection and places it on the Clipboard
Cut	Main	Shift+Delete	Cuts the selection and places it on the Clipboard
Duplicate	Main	Ctrl+D	Duplicates the selected object(s)
Effect Tool	Main	V	Paints with current effect
Ellipse Mask Tool	Main	J	Creates a circular mask
Ellipse Tool	Main	F7	Draws ellipses
Eraser Tool	Main	X	Erases areas of the image
Exit	Main	Alt+F4	Exits the application
Export...	Main	Ctrl+E	Saves a duplicate of an image to disk

Feather...	Main	Ctrl+Shift+F	Feathers the selected object(s)
Fill Tool	Main	F	Fills areas with uniform, fountain, bitmap, and texture fills
Fill...	Main	Ctrl+Backspace	Applies fills and transparency to an image
Fit Text To Path	Main	Ctrl+Alt+F	Fit Text to a Selected Path
Fit in Window	Main	F4	Displays an image to fit in the window
Forward One	Main	Ctrl+PgUp	Moves the selected object(s) up one level in the stacking order
Freehand Mask Tool	Main	K	Creates an irregular mask
Full-Screen Preview	Main	F9	Displays a full-screen preview of the image
Grid	Main	Ctrl+Shift+E	Shows or hides the grid
Grid	Main	Ctrl+Y	Toggles whether tools snap to the grid
Group	Main	Ctrl+G	Groups the selected objects together
Guidelines	Main	Ctrl+Shift+Y	Toggles whether tools snap to the guidelines
Hide Windows	Main	Ctrl+Shift+F4	Shows/Hides all floating/docked windows
Hue/Saturation/Lightness...	Main	Ctrl+Shift+U	Hue/Saturation/Lightness
Image Slicing	Main	Alt+F1	Opens the Image Slicing Docker window
Image Slicing Tool	Main	6	Description
Image Sprayer Tool	Main	I	Paints with current image list
Import...	Main	Ctrl+I	Imports an image from disk
Info	Main	Ctrl+F1	Opens the Image Info Docker window
Interactive Drop Shadow Tool	Main	S	Adds a drop shadow effect to selected objects
Interactive Fill Tool	Main	G	Applies a fill across an image or mask

Interactive Object Transparency	Main	1	Applies transparency to objects
Into Selection	Main	Ctrl+Shift+V	Pastes the image data from the Clipboard into the current selection
Invert	Main	Ctrl+Shift+I	Inverts a mask
Italic	Text Editing	Ctrl+I	Italicizes text
Lasso Mask Tool	Main	A	Creates an irregular mask with similar colors
Last Effect	Main	Ctrl+F	Repeats the last applied effect
Last Object	Main	Shift+B	Selects bottom object
Left	Text Editing	Ctrl+L	Left Alignment
Line Tool	Main	L	Draws straight lines
Lock Object Transparencies	Main	Ctrl+Shift+L	Prevents objects transparencies from being modified
Macro Editor...	Main	Alt+F11	Launches Macro Editor
Magic Wand Mask Tool	Main	W	Creates a mask over areas with similar color
Magnetic Mask Tool	Main	4	Creates an irregular mask by following edges
Marquee Visible	Main	Ctrl+H	Displays the mask marquee
Marquee Visible	Main	Ctrl+Shift+H	Displays the object marquee
Mask Transform Tool	Main	M	Transforms the mask
Mask from Object(s)	Main	Ctrl+M	Creates a mask from the selected object(s)
Maximize Work Area	Main	Backspace	Maximizes the size of the work area
Move Frame...	Main	Ctrl+Shift+G	Moves a single frame or range of frames
Movie	Main	Ctrl+F11	Opens the Movie Docker window
New From Clipboard	Main	Ctrl+Shift+N	Pastes the image data from the Clipboard as a new document
New...	Main	Ctrl+N	Opens a new file
Next Object	Main	Shift+N	Selects object above
Object Pick Tool	Main	O	Selects/Transforms object(s)
Object Transparency Brush	Tool	3	Paints transparency onto object
Object/Clip mask toggle	Main	Ctrl+Shift+T	Toggle between object and clip mask
Object: Copy Selection	Main	Ctrl+UpArrow	Creates an object by copying the current selection
Object: Cut Selection	Main	Ctrl+Shift+UpArrow	Creates an object by cutting the current selection
Objects	Main	Ctrl+F7	Opens the Objects Docker window
Open...	Main	Ctrl+O	Opens an image from disk
Paint On Mask	Main	Ctrl+K	Paint on the mask
Paint Tool	Main	P	Paints with the current brush
Pan Tool	Main	H	Pans areas of a magnified image into view
Paste As New Object	Main	Ctrl+V	Pastes the image data from the Clipboard as a new object
Paste As New Object	Main	Shift+Insert	Pastes the image data from the Clipboard as a new object
Path	Main	Alt+F10	Opens the Path Docker window
Path Tool	Main	F10	Creates and edits paths; Double-Clicking the tool opens the Path Docker

Polygon Tool	Main	Y	Draws polygons
Previews the slices in an external browser	Main	F12	Previews the slices in an external browser
Previous Object	Main	Shift+P	Selects object below
Print...	Main	Ctrl+P	Prints images
Recorder	Main	Ctrl+F3	Opens the Recorder Docker window
Rectangle Mask Tool	Main	R	Creates a rectangular mask
Rectangle Tool	Main	F6	Draws rectangles
Red-Eye Removal Tool	Main	5	Removes red-eye from the image
Redo	Main	Ctrl+Shift+Z	Redoes the last undo operation
Refresh Window	Main	Ctrl+W	Redraws the active Image Window
Remove	Main	Ctrl+R	Clears a mask
Repeat	Main	Ctrl+L	Repeats the last executed command
Replace Color Brush Tool	Main	Q	Replaces the foreground color with the background color
Right	Text Editing	Ctrl+R	Right Alignment
Rulers	Main	Ctrl+Shift+R	Shows or hides the rulers
Save	Main	Ctrl+S	Saves an image to disk
Scripts	Main	Ctrl+F6	Opens the Scripts Docker window
Select All	Main	Ctrl+A	Selects the entire image
Select All Text	Text Editing	Ctrl+A	Select All Text
Select Source...	Main	Ctrl+Shift+Q	Selects an external device for importing images
Text Tool	Main	T	Adds and edits text
Tile Horizontally	Main	Shift+F4	Tiles Image Windows horizontally
To Back	Main	Shift+PgDn	Moves the selected object(s) to the bottom of the stacking order
To Front	Main	Shift+PgUp	Moves the selected object(s) to the top of the stacking order
Tone Curve...	Main	Ctrl+T	Tone Curve
Top Object	Main	Shift+T	Selects top object
Touch-up Brush Tool	Main	7	Removes imperfections from the image
Underline	Text Editing	Ctrl+U	Underlines text
Undo	Main	Ctrl+Z	Reverses the last operation
Undo	Main	Alt+F9	Opens the Undo Docker window
Undo Brush Tool	Main	U	Reverses the last action
Ungroup	Main	Ctrl+U	Ungroups objects
Zoom 100%	Main	Ctrl+1	Displays an image at normal size
Zoom In	Main	F2	Zoom In
Zoom Out	Main	F3	Zoom Out
Zoom Tool	Main	Z	Zooms in and out on the image
